Rating Action: Moody's affirms DBNGP's Baa3 rating; outlook stable

Global Credit Research - 07 Aug 2014

Sydney, August 07, 2014 -- Moody's Investors Service has today affirmed DBNGP Finance Co Pty Ltd's (DBNGP FinCo) Baa3 senior secured rating. The outlook on the rating is stable.

DBNGP FinCo is a wholly-owned financing vehicle of DBNGP Trust ("DBNGP") and its debt obligations are guaranteed by DBNGP and its operating subsidiaries, which collectively own and operate the Dampier to Bunbury Natural Gas Pipeline.

RATINGS RATIONALE

The rating affirmation follows DBNGP's announcement today of the recontracting of negotiated tariffs with the majority of its shippers.

"The new terms of the contracts can be accommodated within the existing Baa3 rating and stable outlook", says Mary Anne Low, a Moody's Analyst, adding "the new terms provide longer term visibility around offtake of gas volume, but which is countered by overall lower tariffs".

Nevertheless, Moody's expects DBNGP FinCo's credit metrics to remain consistently within the Baa3 rating tolerance levels, with Funds From Operations (FFO) to interest staying above 1.5x and FFO to debt above 5.0%. The rating and stable outlook is predicated on Moody's expectation that DBNGP and its shareholders will take the necessary steps to maintain DBNGP FinCo's financial metrics above these tolerance levels.

The new standard shipper contracts provide certainty in relation to tariffs payable by DBNGP's shippers and capacity until the end of 2020, while at the same time extending the term of the contracts to between 2025 and 2033. The new contracts defer DBNGP's shippers' ability to relinquish 10% of their contracted capacity (as contained in the original contracts) from 2016 to 2021, with some amendments in various circumstances after 2021.

The rating continues to be challenged by DBNGP FinCo's high financial leverage, which positions it at the lower end of the Baa3 rating. The company's financial leverage -- as measured by FFO to debt of low 5.0% over the next three years constrains the rating. The weak financial metrics also limits its flexibility to manage external shocks, but is partly mitigated by its strong liquidity position and track record of proactive refinancing efforts well in advance of its debt maturities.

Moody's has previously mentioned that to maintain a Baa3 rating, DBNGP FinCo's FFO to debt has to sustainably remain above 5%. We have taken into consideration the track record of support shown by DBNGP's shareholders, by introducing countermeasures such as providing equity support in the past, and which we expect to continue.

The stable outlook on the rating reflects DBNGP FinCo's investment-grade features as highlighted by its stable operating profile and predictable revenue.

DBNGP FinCo's rating could experience upward pressure if there is a consistent improvement in its financial position, leading to FFO to interest increasing to around 1.9 times, and FFO to debt rising above 9-10%.

On the other hand, the rating could be downgraded if the financial profile deteriorates, as reflected in FFO to interest dropping below 1.5 times, and FFO to debt declining below 5% on a consistent basis. A material deterioration in the credit quality of key customers could also pressure the rating.

The principal methodology used in this rating was Natural Gas Pipelines published in November 2012. Please see the Credit Policy page on www.moody's.com for a copy of this methodology.

DBNGP FinCo -- based in Perth, Western Australia -- is the financing vehicle for DBNGP Trust, which owns the Dampier to Bunbury Natural Gas Pipeline. The project is the main pipeline connecting demand centers in the south-west of Western Australia with gas fields in the Carnarvon Basin. It has a track record of transmitting steady volumes, reflecting the established demand profiles of its industrial, commercial and residential customers.

REGULATORY DISCLOSURES

For ratings issued on a program, series or category/class of debt, this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or note of the same series or category/class of debt or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the rating action on the support provider and in relation to each particular rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this rating action, and whose ratings may change as a result of this rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see www.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on www.moodys.com for additional regulatory disclosures for each credit rating.
