ASX RELEASE

EDL ACQUIRES CULLERIN RANGE WIND FARM

DUET Group (DUET) is pleased to announce that Energy Developments Pty Limited (EDL) has executed a share sale agreement with Origin Energy Limited (Origin) to acquire the 30MW Cullerin Range wind farm (Cullerin) for \$72m (excluding transaction costs). Financial close is expected in the first quarter of FY17.

Transaction Summary

- Located near Gunning in NSW (see attached map)
- 15 x 2MW Senvion turbines
- Commenced operations in July 2009; site leases in place until 2038
- Historical capacity factor of 38%, one of the highest for an Australian wind farm
- Service and availability agreement in place with Senvion
- Long term offtake agreement with Origin
- Sale subject to a number of customary conditions precedent
- Acquisition to be funded from EDL's corporate debt facility
- Acquisition does not change DUET's FY17 distribution guidance and FY18 growth target

DUET's CEO, David Bartholomew commented that "This acquisition leverages EDL's experience and capability in managing a distributed generation portfolio which is diversified across a range of fuel sources."

EDL's Managing Director Greg Pritchard said "The acquisition of Cullerin is an excellent strategic fit for EDL and complements our existing portfolio which includes 160MW of distributed generation located in NSW and ACT."

"We see further potential for EDL to grow in the mid-scale, grid connected renewable sector. This growth will leverage our existing scale and capabilities in managing our clean and renewable generation in our portfolio totalling over 900MW globally", Mr Pritchard said.
